Environmental Management System Policy Statement

Peppers Cable Glands Limited operates an Environmental Management System which complies with the requirements of ISO 14001:2004.

The business is a designer and manufacturer of metallic cable glands, thread adaptors and associated accessories to British and International Standards, or customer specification. It also is a supplier of non-metallic cable glands and other electrical components.

It is the policy of the business to manage its activities in such a way that the environmental impact is minimised and is committed to continual improvement of its environmental performance. This shall be achieved by setting clear objectives where possible, and monitoring the progress made against them.

The business shall ensure that:

- This policy is communicated to all employees and persons connected with this undertaking.
- As a minimum, the business shall comply with all applicable legislation and other requirement to which the organisation subscribes.
- It is the policy of Peppers Cable Glands Ltd to prevent pollution.
- The Environmental Management System shall manage and control the environmental impact of its business.
- Environmental training shall be provided to all employees.
- There shall be regular management reviews of the Environmental Management System to ensure that it remains current, effective and in line with the business aims & objectives. Any changes that are introduced shall be communicated to all employees as soon as is practicably possible.
- The objective of the business is to reduce, recycle or reuse its wastes in order to minimise its impact on the environment.

Signed.....
T Thakore
